

OVERGADEN. LECTURES

Invitation

Superslick Surfaces - Visual Art and The Digital Contemporary

13 October & 18 November 2016 2 - 8pm

Overgaden. Institute of Contemporary Art cordially invites you to join us for this year's Overgaden LECTURES

For the fourth year in a row Overgaden presents international and Danish theoreticians, artists, curators and mediators at the international conference Overgaden LECTURES. The focus of this year's conference will be the notion Post-internet art and will revolve around what impact the Internet and social media have had on art. How does art relate to the omnipresent, virtual universe of the Internet? And what issues, possibilities and strategies has this digital realm generated? The format of the conference consists of two sessions with a month in between. The first session will act as a "call" and the second session (Friday 18 November) will act as a follow-up "response".

This year's Overgaden LECTURES is organised by the German artist and author Andreas Schlaegel. The conference is held in English and is open to everybody.

No registration required.
